Architectural designer with 2+ years experience taking projects from research and concept development through drawings, detailing and execution. My work spans residential, workplace and urban projects with a strong focus on spatial systems, visual communication and how people experience space.

WORK EXPERIENCE

Exhibition Designer

May 2025 – August 2025

School of Architecture | Pittsburgh, PA

- Contributed to exhibition design, fabrication, and on-site construction for the 2025 x-change exhibition.
- Developed book layouts and publication graphics for the annual x-change publication.
- Coordinated print sourcing and production for the final publication.

Co-Founder

February 2024 – Present

Get Listed | Bangalore, India

- Established and managed a graphic and publication service assisting architecture studios in documenting and publishing their work.
- Collaborated with three architecture studios to create high-quality diagrams, plans, sections, and publication-ready packages for project archives and online exposure.
- Designed and curated visual storytelling strategies to enhance firms' branding and visibility in competitions and publications.

Project Designer

August 2023 – July 2024

Studio Chintala | Bangalore, India

- Led research, concept development, and delivery of Working, Living & Innovating, translating behavioral field user research across an industrial campus into a phased design strategy that secured \$10,000 Phase I approval.
- Developed a systems-based intervention framework across 5 spatial domains, presenting cost-tiered prototypes to stakeholders and driving alignment between worker experience goals and operational constraints.
- Designed and delivered environmental graphics for Shell Corporation, including an 8' x 8' wayfinding installation and 400+ sq. ft. of laser-cut acrylic branding across six employee break rooms serving 200+ daily users.
- Developed the initial design and GFC drawing set for a 60,000 sq. ft. office interior renovation.
- Managed design development, production coordination, and manufacturing for the firm's Be.Liv product line.

Visual Designer

August 2023 – July 2024

Nelson WW | Bangalore, India

- Contributed to revamped presentation system and stakeholder portfolio templates for business development across multiple industry verticals. (*Nelson Worldwide, sister firm to Studio Chintala*)

Architectural Intern

June 2021 – January 2022

M9 Design Studio | Bangalore, India

- Contributed to environmental graphics and exhibition design for an award-winning memorial project.
- Produced visual design work featured in *Emergent Practices in South Asia*, published by Harvard GSD.
- Supported material exploration and prototyping with lime plaster finishes.

Machine Learning Intern

August 2020 – December 2020

Uniworks Design | Hyderabad, India

- Constructed training dataset for **ArP-Gen GAN model**: validated 2,000+ architectural floor plans with feature labels.

EDUCATION

Carnegie Mellon University

Master of Advanced Architectural Design

Pittsburgh, PA

May 2026

JNAFA University

Bachelor of Architecture

Hyderabad, IN

July 2023

SKILLS

Design: Architectural Design, Urban Design, Workplace Design, Environmental Graphics, Exhibition Design, Design Research, Material Exploration

Technical: Design Development, Construction Documentation, GFC Drawings, 3D Modeling, BOQ Coordination, Vendor Coordination

Software: Revit, AutoCAD, Rhino 3D, Grasshopper, SketchUp, Blender, Enscape, Lumion, Photoshop, Illustrator, InDesign, After Effects, Figma
